JP Student Fellowship at Peering Asia 8.0

We are pleased to announce the implementation of the **JP Student Fellowship** at Peering Asia 8.0, aiming to nurture the next generation of engineers and leaders in the internet infrastructure industry. Building on a strong track record of student support initiatives, this fellowship was planned, coordinated, and organized through the leadership of QUNOG (Kyushu Okinawa Network Operators Group), Peering Asia SC, and Far East Networks LLC, with the understanding and generous support of the hosts: NTT Smart Connect Corporation, OPTAGE Inc., and INTERNET MULTIFEED CO.

- SYNAPSE Co., Ltd.

Selected Student Fellows & Selection Supporters

Following a rigorous selection process targeting students aspiring to build careers in the internet infrastructure industry, **6 student fellows** have been selected based on the following criteria:

- Strong interest and eagerness to learn about internet technologies, Peering, and Transit architecture.
- High motivation to contribute to the internet infrastructure industry and its technical community in the future.
- Proactive attitude toward English communication and international networking.

Special Thanks: Planning & Selection Supporters (Alphabetical order, Honorifics omitted)

Prof. Masayuki OKADA
University of Nagasaki

Mr. Masashi SHIBAMURA
QUNOG Representative / SYNAPSE Co., Ltd.

Dr. Yuko KAMIYA
Fukuoka Women's University

Prof. Toshihiko SHIMOKAWA
Kyushu Sangyo University

To All Attendees: Request for Cooperation

During the conference, the 6 student fellows will participate in data center tours, technical sessions, and networking events. Should you meet our student fellows at the venue, we would greatly appreciate your warm encouragement and your willingness to share your knowledge and industry experience with them.
